	EXHIBIT D: Assessment Roll	16

# **ENGINEER'S STATEMENT**

This Report is prepared pursuant to Section 36600 et. seq. of the California Streets and Highways Code (the "Property and Business Improvement District Law of 1994" as amended) (here and after "State Law") and pursuant to the provisions of Article XIIID of the California Constitution (Proposition 218).

The Santa Monica Property-Based Assessment District ("PBAD") is designed to improve and benefit the downtown properties in the City of Santa Monica. The PBAD boundaries are narrowly drawn and only include properties that directly benefit from the services to be financed from the assessments. Every assessed property within the PBAD receives special benefit from the enhanced safety and maintenance activities, homeless outreach, special projects and marketing activities. Only those properties within the PBAD receive the special benefit of these proposed activities (Exhibit A).

The duration of the proposed PBAD is twenty (20) years commencing January 1, 2009. An estimated budget for the PBAD improvements and activities is set forth in Exhibit B. Assessments will be subject to an annual increase of up to 5% per year as determined by the Owners' Association and will vary between 0 and 5% in any given year. Funding for the PBAD improvements and activities shall be derived from a property based assessment of each benefited parcel in the PBAD. A detailed description of the methodology for determining the benefit assessment for each parcel is set forth in Exhibit C.

This Report includes the following attached Exhibits:

**EXHIBIT A:** A detailed description of the improvements and activities to be provided.

**EXHIBIT B:** The estimate of the cost of the improvements and activities.

**EXHIBIT C:** A statement of the method by which the undersigned determined the amount proposed to be assessed against each parcel, based on benefits to be derived by each parcel, respectively, from the improvements and activities.

**EXHIBIT D:** An assessment roll, showing the amount proposed to be specially assessed against each parcel of real property within this assessment district.

Terrance E. Lowell, P.E.

## **EXHIBIT A: IMPROVEMENTS AND ACTIVITIES**

To form the Santa Monica PBAD, downtown property and business owners, community residents and civic leaders have been involved in an 18 month participatory process that was initiated in the summer of 2006. Through the process of working with the PBAD Working Group, one-on-one meetings with property owners and community forums the primary needs as determined by property owners were:

- ♦ Enhanced Safety and Maintenance
- ♦ Homeless Outreach
- ♦ Marketing
- ♦ Special Projects
- ♦ Administration and Advocacy

Based upon these findings, the following improvement and activity categories are recommended for the PBAD. The following narrative provides recommendations for the PBAD's first year of operation. Final programs and budgets will be subject to the review and approval of the PBAD Owners' Association and City Council.

#### ENHANCED SAFETY AND MAINTENANCE

The top priority for the property owners is to provide a safer and cleaner environment for businesses, employees and pedestrians within the PBAD boundary. A Downtown Ambassador program is recommended to provide the enhanced safety services, and maintenance crews will provide the enhanced maintenance services. Each of these services is expected to be contracted out with a third party service provider. The contractor will only provide these services within the PBAD boundary.

#### **Ambassador Program**

The deployment of "Downtown Ambassadors" is envisioned as a new downtown service that would be fully financed by new PBAD assessments. Ambassadors, which are deployed in downtowns throughout Southern California and the West, can be trained for a variety of tasks, ranging from providing information to pedestrians to offering escort services for employees to bearing witness against persons that commit nuisance crimes. Ambassadors do not carry weapons, but they do act as "eyes and ears" for police and often carry devices to communicate with police. Ambassadors wear distinctive and colorful uniforms that maximize the visibility of their presence on the street plus complement overall downtown marketing efforts. Ambassador programs also work in concert with local social service providers, offering service referrals and, as the program matures, entry-level employment options for persons living on the street.

In Downtown Santa Monica, the following functions are envisioned for ambassadors:

- Work with social service agencies and the City to reduce homelessness;
- Serve as "concierges", providing information to downtown pedestrians;
- Serve as witnesses to help charge individuals that commit nuisance crimes;
- Provide a downtown "neighborhood watch" to improve public safety; serve as attendants within public restrooms.

The following deployment frequency is proposed for the first year of operation:

Ambassadors F.T.E.	960 hours/week
	Average 24.0 F.T.E.
Coverage in All Areas	7 days/week
	10:00 a.m. to 12:30 a.m.
Restroom Attendants	112 hours/week
Deployment	Walking & Bicycles

#### **Maintenance Services**

To develop the proposed new maintenance service program the City of Santa Monica and a private consulting firm, SGI, analyzed the existing city provided maintenance service and made recommendations as to what type and frequency of enhanced maintenance services would be needed to provide a cleaner downtown environment.

Based on their analysis it is envisioned that the entire downtown maintenance program will be jointly developed and monitored by both the City and the PBAD. In this manner resources can be combined and deployment can be adjusted to optimize the use of maintenance resources throughout the district. In practice, the City intends to provide its existing services and the City and the PBAD will jointly prepare an operating plan to address how additional services are provided. The enhanced maintenance services financed by the PBAD will be extra services, over and above the basic level of service the City currently provides. The proposed maintenance services will be provided for public property such as sidewalks, streets, alleys, parkways and landscaping that is adjacent to assessed properties or in close proximity. The table below illustrates the service levels that both the City provides, and will continue to provide, and the enhanced services the PBAD will provide.

Maintenance Program	Existing City Services	Proposed Enhanced Services Financed by PBAD
Maintenance Personnel (F.T.E.)	Existing: 19 F.T.E plus 10 part-time	Average 24 F.T.E.
Daily Coverage	Existing shifts 10 p.m. to 6:30 a.m. 6:00 a.m. to 2:30 p.m.	7:00 a.m. to 7:00 p.m.
Litter Removal/Vacuuming	Daily	Daily
Litter Removal/Pan & Broom	Daily	Daily
Empty Trash Containers	Daily	Daily
Machine Sweeping	Daily	Daily
Transit Stop Maintenance	N/A	Daily
Steam Cleaning	Daily	Six times per year
Graffiti Removal	Daily	Daily
Light Landscape/Weeds	As Needed	As Needed
Utility Team emergency cleaning	As Needed	As Needed

## **MARKETING**

In addition to Maintenance and Ambassador services, the PBAD program includes funds for marketing activities to support promotions, special events and other programs that help market downtown as a visitor destination. Additional marketing resources are viewed as essential to keep downtown competitive with new regional shopping and entertainment destinations, and to maximize residents' use of the downtown. Examples of marketing activities include:

- Design and production of the downtown map and directory;
- Special events to attract residents and visitors to downtown the holiday ice rink is an example;
- Promotion and advertising to profile shopping, entertainment and special event opportunities;
- Design and disseminate a destination brand for downtown;
- Undertake market research to better understand resident needs and market opportunities;
- Other marketing activities to promote downtown to both Santa Monica resident and visitor markets.

#### HOMELESS OUTREACH AND ASSISTANCE

Resolving the homeless issue is another top priority among downtown property and business owners, citing concerns with nuisance crimes, compounding maintenance issues and creating an intimidating street atmosphere. A PBAD community survey in February 2008 cited the large homeless population as the number one characteristic that respondents would like to change about downtown.

To reduce homelessness in downtown Santa Monica, a multi-faceted approach that combines resources from the business community, city and social service agencies is proposed. These proposals are consistent with the recommendations of the December 2006 Urban Institute Study on homelessness. Elements of this initiative that could be supported by PBAD assessments include:

- **Downtown Homeless Outreach Team**: In partnership with a social service agency, a downtown homeless outreach team could include professional social workers that meet daily with homeless individuals, helping to place them in the city's continuum of care or offering assistance to stabilize their condition on the street.
- **Downtown Ambassadors**, described in a previous section of the Management Plan, are expected to be trained in concert with social service providers to assist in connecting street populations to appropriate services.
- **Job Placement** in the supplemental downtown cleaning and ambassador programs will be explored.

## SPECIAL PROJECTS

The PBAD also offers flexibility to develop strategies and implement a variety of initiatives that will specially benefit properties within the district. Examples of special projects may include:

- Transportation Alternatives to Reduce Congestion: Educational programs, communications and research to encourage downtown employees and visitors to utilize transit and other alternatives to vehicles can be supported by PBAD assessments.
- Urban Design Improvements: Planning, design and engineering to update existing streetscape, improve lighting and/or create other public space amenities can be supported by PBAD assessments. The financing of new amenities may require the issuance of bonds, which can be supported by assessments. Any future increase in assessments beyond the parameters set in this Management Plan would require a mail ballot vote by affected property owners.
- Parking Management & Development: The PBAD can finance efforts to increase and/or improve parking that is available for public use within the downtown. The Downtown Management Framework supported continued implementation of existing City parking improvement, replacement and expansion strategies, which may need to be supplemented by the future issuance of bonds or fees support by PBAD assessments. Any future increase in assessments beyond the parameters set in this Management Plan would require a mail ballot vote by affected property owners.

#### **ADMINISTRATION**

Administrative costs of 10% have been included within the PBAD budget. Examples of administrative costs include:

- Accounting and annual financial audit
- Insurance for the PBAD owner's association board of directors
- Program support costs including supplies, equipment and rent
- County PBAD assessment collection fee, estimated at 1% of assessments
- Other administration costs associated with the overhead and administrative support of programs.

To reduce administrative costs, increase leveraging of funds and avoid duplication of enhanced services, this plan anticipates that the PBAD Owner's Association will be the existing Bayside District Corporation. All properties receive special benefit from administrative services in that they all benefit from an efficient, well-managed PBAD so that the PBAD operates efficiently and effectively.

# **EXHIBIT B: ESTIMATE OF COST**

# 2009 Operating Budget

The following table outlines the PBAD maximum assessment operating budget for January 1, 2009 through December 31, 2009.

Improvements & Activities	Proposed 2009 Budget	With Administration Allocated
Maintenance	\$1,289,000	\$1,417,900
Ambassadors	\$1,228,000	\$1,350,800
Marketing	\$400,000	\$440,000
Homeless Outreach	\$100,000	\$110,000
Special Projects	\$250,000	\$275,000
Administration (10% of programs)	\$326,700	
Total	\$ 3,593,700	\$3,593,700

## **Budget Notations**

- 1. Assessments will be subject to an annual increase of up to 5% per year as determined by the Owners Association and will vary between 0% and 5% in any given year.
- 2. Any accrued interest or late fees may be expended in the above categories.

# EXHIBIT C: METHOD OF APPORTIONMENT

## PBAD Boundary

The proposed PBAD district will encompass the core of the downtown area bounded roughly by Wilshire Boulevard to the north, 7<sup>th</sup> Street to the east, the Santa Monica Freeway to the south and Ocean Avenue to the west.

#### **Benefit Zones**

The services that the District will provide, as described earlier, will be in accordance with the needs of different areas of the District. To ensure that assessment levels are proportional to benefits received three benefit zones are proposed to account for the different levels of service. They are Promenade, Bayside/Ocean and Downtown East, delineated as follows:

- Promenade: The three block core of the Third Street Promenade from Broadway to Wilshire Boulevard which experiences the most pedestrian traffic, special events and has the highest intensity of land use have the highest demand for PBAD services. This highest level of services acknowledges the fact that the Ambassadors will deliver services at the highest intensity with foot patrol, and the maintenance crews will spend the greatest amount of effort in the Promenade Zone than elsewhere in the District. With the highest concentration of uses and pedestrian traffic, the Marketing/Outreach programs will focus their efforts in this area. In recognition of the highest levels of service and benefits to the properties the PBAD assessments for the Promenade Zone will be four times greater than the rest of the District. The assessment revenues generated from the Promenade Zone will be spent solely within that zone.
- Bayside/Ocean: The second benefit zone, Bayside/Ocean, bounded by 4th and Ocean Avenue and Santa Monica Place to Wilshire Boulevard (excluding those properties in the Promenade Zone) will receive less frequency of services than the Promenade Zone. This is due to the fact that the Bayside/Ocean Zone has less pedestrian traffic and it is anticipated that the scope of services for both the Ambassadors and maintenance crews will be less than that of the Promenade Zone. The Ambassadors will have less concentration of services, using a combination of bike patrol and foot patrol, and the maintenance crews will spend less effort maintaining this zone than than they do in the Promenade Zone. Also, properties in the Bayside/Ocean area will pay less than the properties in the Promenade area for Marketing/Outreach programs as there are fewer activities to promote in this area and it is a further distance from the Promenade. Therefore, the assessments for the Bayside/Ocean Zone will be one-half that of the Promenade Zone. The assessment revenues generated from the Bayside/Ocean Zone will be spent solely within that zone.
- Downtown East: The remainder of the district east of 4th Street to 7th Street is anticipated to receive the least amount of services. The Downtown East Zone has the least amount of businesses and pedestrian traffic. The Ambassadors and maintenance crews will provide the least amount of service in this zone compared to that of the Promenade Zone. The Ambassadors will have the least amount of concentration, solely using bike patrol, and the maintenance crews will spend the

least amount of effort maintaining this zone compared to the Promenade Zone. Also, properties in the Downtown East Zone will pay the least amount for Marketing/Outreach programs as this area has the fewest number of activities to promote and is the farthest distance from the Promenade. Therefore, the assessments for the Downtown East Zone will be one-quarter that of the Promenade Zone. The assessment revenues generated from the Downtown East Zone will be spent solely within that zone.

The following diagram illustrates the benefit zone boundaries.

# Special Benefit

The Property and Business Improvement District Law of 1994, as amended, and the State Constitution Article XIIID require that assessments be levied according to the special benefit each assessed parcel receives from the improvements and activities.

All of the improvements and activities detailed below are provided only within the boundaries of the District and provide no special benefit to the properties outside the boundary area. The definition of special benefit is a benefit unique and special to identified properties resulting from the improvement, activity, or service to be provided by the assessment levied. We determined that the proposed improvements and activities provide only special benefit to the real property within the district area as discussed below for each program. Each of the programs is designed to meet the goals of the PBAD; to improve the appearance and safety of the PBAD, to increase office building

occupancy and lease rates, to encourage new business development and to attract ancillary businesses and services. A basic premise of commercial business is that an increase in the number of people to an area increases the economic return to the property. Casual visitors to the District will enjoy cleaner and safer streets, and enjoy programs and other events made possible by the additional services financed by the PBAD. These visitors will be more likely to return to the District based on their positive experience. These casual visitors are therefore considered potential customers who will become the target audience for future patronage of retail and business establishments and services, and the renting of space in commercial and residential buildings. The enhanced PBAD services are a special benefit because they will increase the demand for building space and encourage business development and investment dollars.

A General Benefit is defined as a benefit to properties in the area and in the surrounding community or benefit to the public in general resulting from the improvement, activity or service to be provided by the assessment levied. Inasmuch as all services will be provided to the properties within the District boundaries and no services will be provided outside the District boundaries, any potential general benefits are intangible and not quantifiable.

#### Safety and Maintenance

These programs as described in Exhibit A will provide a higher level of security and maintenance for the PBAD area than the City currently provides. The services the security forces and maintenance teams provide are specific to the downtown Santa Monica area, thus, each assessed parcel located in the PBAD will benefit from the higher level of security and maintenance services by providing a safer and cleaner environment that allows for future business development and investment. The security and maintenance services will not be delivered to any parcel outside of PBAD boundary. Therefore, it is our opinion that there is no general benefit and that the increased level of security and maintenance provides a special benefit only to the assessed parcels in the PBAD. All general benefits, if any are intangible and are not quantifiable because the properties outside the PBAD boundaries will not directly receive any of the security or maintenance. Thus the benefit they may receive is not measurable.

#### Marketing, Homeless Outreach and Special Projects

These programs, as described in Exhibit A, are intended to provide an environment that retains and attracts new business. These are in an effort to encourage investment dollars and enhance the value of the properties. In order to accomplish this, the PBAD proposes a myriad of homeless outreach and marketing programs and special projects. These programs are designed to benefit only the downtown Santa Monica area and are only provided within PBAD boundary, thus, each assessed parcel located in the PBAD will benefit from these programs. Therefore, it is our opinion that the homeless outreach and marketing programs and special projects provide a special benefit to the parcels in the PBAD and any potential general benefits are intangible and not quantifiable.

#### **Administration**

This program as described in Exhibit A is designed to develop public/private partnerships that will enhance the goals and needs of the PBAD area all in an effort to increase investment dollars. The program is geared to increase customers and pedestrian traffic to the area which will improve the commercial desirability of assessed properties within the PBAD boundaries. The above benefits are to be provided only to assessed parcels within the PBAD boundaries. Therefore, it is our opinion that there is no general benefit and that the administrative program provides a special benefit only to the assessed parcels in the PBAD. All general benefits, if any, are intangible and are not quantifiable because properties outside the PBAD will not receive the benefits of any additional programs provided by the PBAD due to its administrative efforts.

In addition to the special benefits described above for the PBAD programs, there are also less tangible reasons why these services provide only a special benefit to those properties within the PBAD.

- 1. All improvements and activities to be provided through the PBAD are special services and are above and beyond the general level of service the City provides.
- 2. All improvements and activities to be provided through the PBAD are designed by the property owners to increase business revenue and provide special benefits that may result in increased rental occupancy rates and annual revenue incomes to the owners of real property within the district.
- 3. The California State Legislature found that assessments levied for the purpose of providing improvements and promoting activities that benefit real property are not taxes for the general benefit of a city, but are assessments for the improvements and activities which confer special benefits upon the real property for which the improvement and activities are provided. Streets and Highways Code Section 36601 (d).

Any general benefits, if general benefits do exist, to the properties in the area and surrounding community and public in general are intangible and not quantifiable. All benefits derived from the assessments are for services directly benefiting the assessed properties in this assessment district and support increased commerce and the goals and objectives of the PBAD.

## Assessment Method

Determining the proportionate share of special benefit among the parcels of real property, including the government owned parcels, within the proposed assessment district which benefit from the proposed Improvements is the result of a four-step process:

- 1. Defining the proposed improvements.
- 2. Identifying how each assessed parcel specially benefits from the proposed improvements and activities.
- 3. Determining the amount of the special benefit each assessed parcel receives in relation to the other parcels in the district.
- 4. Apportioning the cost of the proposed improvements and activities to each assessed parcel based on the special benefit received.

The proposed improvements and activities as outlined in Exhibit A will provide a higher level of service than the City provides with City funds to those parcels in the PBAD area. Therefore, every parcel in the PBAD benefits from the improvements and activities and will receive enhanced safety and maintenance services, homeless outreach and marketing efforts, special projects, and administration. The PBAD programs are designed to deliver service to each parcel within the district.

#### Assessment Factors

The Santa Monica property owners and business owners have emphasized that the assessment formula for the PBAD must be fair, balanced and have a direct relationship to benefits received. The State enabling legislation, Section 36632(a) if the Streets and Highways Code, also states, "Assessments levied on real property...shall be levied on the basis of the estimated benefit to the real property within the...district."

While all the PBAD services will only be provided to the benefiting parcels in the district, the recommended assessment methodology for the District is to use building square footage or lot square footage, whichever is greater. If a vacant parcel develops during the course of the assessment district, then that parcel's future assessment will be its fair share based upon the number of building square feet developed so long as it is greater than the lot square feet.

**Building or Lot Square Footage:** The greater of lot or building square footage for each parcel of real property are the primary assessment variables for all properties within the PBAD. Benefits from all PBAD activities are designed to improve cleanliness, public safety, image, occupancy and sales, benefits that are distributed for all real property within the district. Developed parcels receive the greatest benefit from the proposed improvements and activities for the tenants, employees and pedestrians. For undeveloped parcels and parking lots, lot square footage acknowledges the benefits of these services to the ground level of property.

# Property Use Considerations

All parcels in the PBAD benefit from the safety and maintenance services. However, not all parcels benefit from the Homeless Outreach, Marketing and Special Projects. In order to ensure proportionality, these parcels, such as residential, non-profit and government owned will be assessed based on the following methodology:

- Treatment of Residential Property: All parcels with residential uses will be subject to an adjusted assessment rate. Residential uses will fully benefit from safety and maintenance services and will pay a full share of these services; however, marketing, homeless outreach and special projects will not benefit residential uses and the residential rate does not include an assessment for these services.
- Treatment of Parking Structures: Parking structures are used primarily to park cars and not to house tenants or businesses. Parking structures can gain different levels of benefit from PBAD improvements and services based upon their use and ownership. Public parking that is owned and operated by government is part of the infrastructure that supports downtown commerce and receives less special benefit from the PBAD improvements and activities and will therefore be assessed at a rate commensurate with the benefits received. Parking structures will be subject to one of the following methodologies:
  - a. Parking square footage that is integrated within a building, has the same ownership and on the same single parcel as the building, and the building has uses in addition to parking where parking is just an ancilliary use, do not receive benefit from the PBAD services and therefore will not be assessed.
  - b. Stand-alone public parking structures owned and operated by government receive half the benefit of a similarly sized building due to their role as part of the infrastructure that supports downtown commerce and will be assessed at one-half of the gross building square footage of the parking structure.
  - c. Other stand-alone parking structures that are not ancillary to a building or publicly-owned, will receive the full benefit from PBAD improvements and activities and will be assessed at standard assessment rates for commercial properties.
- Assessment Policy on Non-Governmental Tax-Exempt Properties: Properties that are exempt from property tax, including churches, non-profit service organizations and income-assisted housing owned by non-profit entities, will not benefit to the same degree as commercially developed parcels. The intent of tax exempt properties is to provide a civic service to the community at large and to not encourage increased revenues or future investment dollars, as with commercially developed parcels. An owner of such tax-exempt property located within the PBAD boundaries may reduce their assessment if all of the following conditions are met:

- 1. The property owner is a non-profit corporation that has obtained federal tax exemption under Internal Revenue Code section 501c3 or California franchise tax-exemption under the Revenue and Taxation Code Section 23701d.
- 2. The class or category of real property has been granted an exemption, in whole or in part, from real property taxation.
- 3. The property owner makes the request in writing to the Bayside District Corporation prior to the submission of the PBAD assessment rolls to the Los Angeles County Assessor (on or before July 1 of each year), accompanied by documentation of the tax-exempt status of the property owner and the class or category of real property.

If these conditions are met, the amount of the PBAD assessment to be levied will be for one-half of the rate for Maintenance and Ambassador services.

**Government Assessments**: The PBAD assumes that the City of Santa Monica, Santa Monica Redevelopment Agency, Los Angeles County, State of California and other government entities will pay assessments for the special benefits conferred to government property within the boundaries of the PBAD. Government properties will fully benefit from the safety and maintenance services and will pay their fair share of these services. However, marketing, homeless outreach and special projects will not benefit government uses and the government rate does not include an assessment for these services.

#### Assessment Calculation

As previously discussed the budget is allocated to either the building or lot square footage, whichever is greater. The total number of assessable building or lot square feet for each Benefit Zone is shown below:

Zone	TOTAL Bldg or Lot Sq.Ft.	Weighted Sq.Ft.
Promenade Zone (x4)	1,113,936	4,455,744
Bayside/Ocean Zone (x2)	5,846,889	11,693,778
Downtown East Zone (x1)	4,111,406	4,111,406
	11,072,231	20,260,928

#### Safety and Maintenance Assessment

The PBAD budget assigned to these two services with the administration added on is \$2,768,700. Since all parcels benefit from these services the assessment rate for these services is \$0.136652 (\$2,768,700 divided by 20,260,928) per assessable building or lot square foot.

#### Homeless Outreach/Marketing/Special Projects Assessment

Only commercial use or vacant parcels benefit from these services. Therefore the assessment rate for these services is allocated strictly to the square footage for those uses. The assessable square footage for these services is 14,960,326. The budget assigned to these services is \$825,000. Therefore the assessment rate for these services is \$0.055146 (\$825,000 divided by 14,960,326) per assessable building or lot square foot.

The table below summarizes the assessment rates for each service category by land use category.

SERVICE	Commercial (lot or building sq.ft. per year)	Residential & Government (lot or building sq.ft. per year)	Non-Profit (lot or building sq.ft. per year)
Maintenance & Ambassadors	0.136652	0.136652	0.068326
Marketing & Special Projects	0.055146	0.000000	0.000000
TOTAL	0.191798	0.136652	0.068326

**Total Estimated Assessments:** Based upon the above methodology and assessment calculations the assessments for each land use category will not exceed the following amounts during the first year of the PBAD:

BENEFIT ZONE	Commercial (lot or building sq.ft. per year)	Residential & Government (lot or building sq.ft. per year)	Non-Profit (lot or building sq.ft. per year)
Promenade (x4)	0.767192	0.546609	0.273304
Bayside/Ocean (x2)	0.383596	0.273304	0.136652
Downtown East (x1)	0.191798	0.136652	0.068326

# **Assessment Adjustments**

**Future Development:** As a result of continued development, the PBAD may experience the addition or subtraction of assessable building square footage for parcels included and assessed within the PBAD boundaries. The modification of parcel improvements assessed within the PBAD may then change upwards or downwards the amount of total building square footage assessment for these parcels. In future years, the assessments for the special benefits bestowed upon the included PBAD parcels may change in accordance with the assessment methodology formula listed in the Management District Plan and Engineer's Report, provided the assessment formula does not change. If the assessment formula changes, then a Proposition 218 ballot will be required for approval of the formula changes.

**Vacant Parcels**: Vacant undeveloped parcels receive the same benefit from the proposed improvements as do developed parcels, however the benefit of services is

delivered to the lot. Therefore, so long as a parcel is vacant and undeveloped it will be assessed based on its lot square footage taking into account the benefit zone. However, if the vacant parcel is developed during the course of the PBAD, it will be assessed the same rate as all other developed parcels in the PBAD based on the benefit zone. Assessments are levied on newly developed parcels at the time of Certificate of Occupancy.

**Budget Adjustment:** Any annual budget surplus or deficit will be rolled over to the following year's PBAD budget, and assessments will be recalculated proportionately as long as they stay within the maximum 5% increase.

# **EXHIBIT D:** ASSESSMENT ROLL

The following table shows the assessment roll for the first year of operation.

# SANTA MONICA PBID ASSESSMENT ROLL July 10, 2008

				TOTAL
				PARCEL
APN	Owner Name	Site Address	Benefit Zone	ASSMT
4291-003-025	1201 Third Street Promenade Llc	1201 3Rd Street Prom	Promenade	\$32,279.61
4291-004-014	1207 Fourth Street Partnership	1207 4Th St	Bayside/Ocean	\$8,766.32
4291-003-024	1215-21 Third Street Promenade L	1215 3Rd Street Prom	Promenade	\$11,506.35
